HYGIENE  
& TROPICAL  
MEDICINE

**WEBINAR**

**10th November  
12.00pm (GMT)**

## Including random centre effects in design, analysis and presentation of multi-centre trials

**Kate Edgar**

PhD student  
in Medical Statistics

London School of Hygiene  
and Tropical Medicine

Kate completed the MSc in Medical Statistics at LSHTM in 2019. As part of an NIHR fellowship she stayed there as a Research Assistant in the Medical Statistics department, working with Professor Linda Sharples on multi-level models and subgroup analysis. Since then she has started a PhD at LSHTM, using causal mediation analysis to investigate a trial of Hospital at home vs. hospital care for older persons.
