Working Group Project Seed Co-funding 2023

Health Research Board – Trials Methodology Research Network Ireland
& MRC-NIHR-Trials Methodology Research Partnership UK

Key Dates

Call Open:
07 June 2023

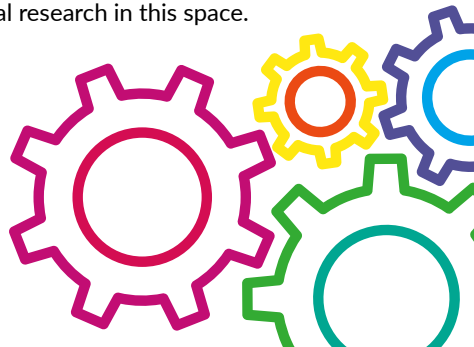

Submission Deadline:
29 Aug 2023

Notification of Outcome:
25 Sep 2023

Project Start Date:
01 Oct 2023

Overview

Join us in bolstering trials methodology research and fostering international collaborations. We are offering seed funding (€10,000 or £10,000) to MRC-NIHR-TMRP and HRB-TMRN working group members to drive high-quality, influential research in this space.

Objectives

Encourage top-tier trials methodology research relevant to national and international priorities.

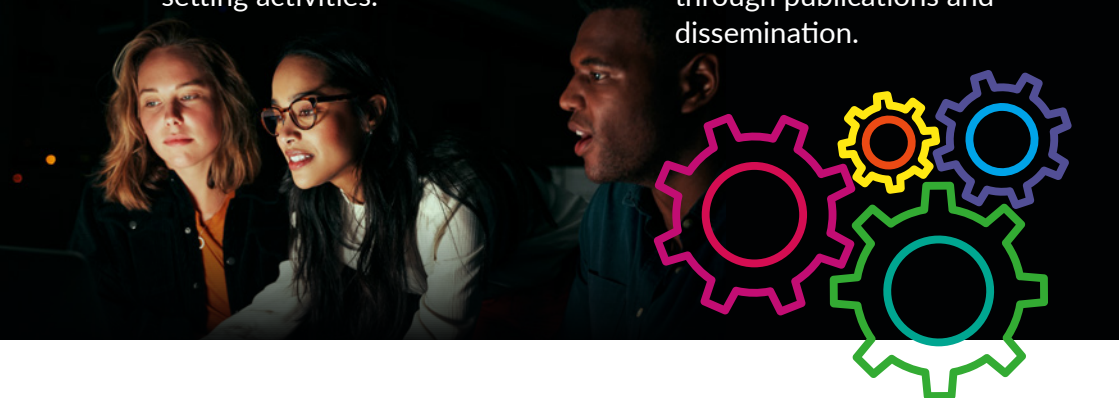

Strengthen collaborations between Irish and UK colleagues within TMRP working groups.

Establish a platform for future research and priority-setting activities.

Enhance visibility of TMRP working groups' activities through publications and dissemination.

Scope

We support research and training workshops directly relevant to trials methodology. Our goal is to ensure trials are more relevant, influential, lead to better patient care, and are immediately useful to decision makers.
